

ISHA THAKUR

Full Stack Web Developer

Indore, Madhya Pradesh, India | +91 8130371593 | tisha8357@gmail.com | isha-thakur.netlify.app | linkedin.com/in/thakurisha | github.com/ishat005

SUMMARY

Full Stack Developer with hands-on experience building and shipping web applications end-to-end — from React/Next.js front ends to Node.js and Java/Spring Boot back ends. Comfortable across the stack: REST APIs, relational and NoSQL databases (MongoDB, MySQL), and cloud services on Azure. Background spans startup and enterprise environments, including building an AI-powered product from the ground up and delivering features for large-scale business applications.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, jQuery

Backend: Node.js, Express.js, Java, Spring Boot, Python

Databases: MongoDB, MySQL, SQL

Cloud & DevOps: Azure (Function Apps / Serverless), Azure DevOps, Git, GitHub

Tools & Other: REST APIs, Postman, Figma, Sass, WCAG/ARIA accessibility, VS Code, Netlify

EXPERIENCE

Associate Software Engineer — Orange Data Tech Pvt. Ltd., Indore, MP

Aug 2025 – Present

- Engineered core features using Java and Spring Boot for EngagePEO, delivering scalable business solutions that met complex client requirements.
- Built automated report generation features with Playwright and Spring Boot to programmatically export and deliver PDF and PowerPoint reports from Power BI dashboards.
- Developed serverless log synchronization features using Azure Function Apps in Python and Java, ensuring seamless data workflows and system observability.
- Built automated Python and SQL validation scripts within Snowflake to maintain data consistency across business dashboards.

Software Engineer — Radical AI, US (Remote)

Jun 2024 – Jan 2025

- Developed "Kai," an AI-powered Teaching Assistant using OpenAI, Node.js, and React, enhancing program design and instructional support.
- Built an intuitive, user-friendly interface enabling instructors to manage content efficiently and engage with learners seamlessly.
- Implemented a notification system, error-handling features, and business logic for the platform, collaborating with a team of frontend and backend engineers.
- Streamlined administrative workflows by automating tasks, integrating responsive design and real-time interaction capabilities.

IT Support Specialist (Internship) — SSL Computers, Abbotsford, BC

Jun 2023

- Resolved over 50 support tickets, prioritizing urgent requests to improve customer satisfaction by 15%.
- Performed system maintenance, data restorations, and software updates, ensuring 99% uptime for clients.

PROJECTS

La Maison — Full-Stack Real Estate Platform — React, Node.js, Express.js, MongoDB, Mongoose, JWT, Tailwind CSS, EmailJS

Live: lamaisonreal-estate.netlify.app | **GitHub:** github.com/ishat005/real-estate

- Built and deployed a full-stack real estate platform with property listings, authentication, user profiles, favorites, contact inquiries, and role-based user/admin workflows.
- Implemented JWT-secured REST APIs, protected routes, MongoDB/Mongoose data models, and a personalized favorites system for authenticated users.
- Integrated MongoDB-backed contact inquiries with EmailJS notifications and developed responsive React interfaces using reusable components and Tailwind CSS.

Royal Caribbean Industry Project — 24-Hour Hackathon — HTML, CSS, JavaScript, React

- Converted Figma mockups into a responsive website within a 24-hour hackathon while collaborating with a UX team on interface design.

EDUCATION

Diploma in Software Engineering — BrainStation, Vancouver, BC | Feb 2024

Bachelor of Science in Computer Science — University of the Fraser Valley, Abbotsford, BC | Jun 2022

Diploma in Information Systems Support Specialist — CDI College, Surrey, BC | Jun 2023
